DRAFT MINUTES

Present: Chief Rhude, Lisa Mycock, Fran Parks, Lisa Haven, Katheryn Giardi, Rick Fenuccio

A draft plan for the creation of offices for the Fire District was presented with two options. The first option would use the existing offices in the fire station which currently are bunk rooms and add space to the building for new bunk rooms, kitchen and an office for the fire fighters. Option B would leave the current use of the offices as bunk rooms and an addition to the station would house the offices for the Fire District. The addition would be approximately 4000 square feet. The pros and con of both plans were reviewed. The architects requested a decision be made as soon as possible on option A or B. The Prudential Committee is meeting 11 February 2019 and will make a decision at that meeting.

Respectfully Submitted
